

# **BOOSTABILITY PITCH DECK - DETAILED**

## **AI Assignment Management Platform**

Complete slide content and strategic information

### **SLIDE 1: TITLE SLIDE**

Boostability: An AI Assignment Management Platform

Today, students do not know how to learn and faculty are blind to struggling students until it is too late.

### **SLIDE 2: THE PROBLEM**

#### **The Gap**

Students do not know how to execute on assignments. Faculty cannot see struggling students early enough to avoid dropout.

#### **Student Reality**

- 80-95% procrastinate on assignments
- 1 in 4 students drop out for academic reasons
- 1 in 5 students drop out for mental health
- 20% report executive function deficits affecting time management

#### **What Institutions Miss**

- Faculty spend 6+ hours weekly grading with zero early warning visibility
- Struggling students only visible after midterm when intervention is too late
- \$33B annually lost to college dropout in US economy
- Average institution loses \$18K-\$30K per dropout

### **SLIDE 3: THE SOLUTION**

#### **Boostability Assignment Management Platform**

##### **Students Get Structure**

Mobile app breaks assignments into daily executable tasks. SMS nudges keep momentum. Students move from overwhelm to on-time submission.

##### **Faculty Get Boostability 360**

Real-time engagement visibility. Early detection of struggling students. Prevents midterm crises. Works with existing tools.

##### **Outcome**

Students learn to execute. Faculty prevent dropout. Institutions retain students.

## SLIDE 5: TRACTION & VALIDATION

### Validation & Recognition (2025)

- 100+ student pilot across 5+ universities
- Columbia eLab fellowship
- Pace University Frontgate residency
- Microsoft Founder Hub & AWS Founders Club

### Scale Milestones

- 2026: 5-6 schools, \$34.7K revenue
- 2027: 50 schools, \$600K ARR
- 2028: 250 schools, \$3M+ ARR

## SLIDE 6: BUSINESS MODEL

### Pricing & Unit Economics

- \$12 per student per month, 9-month minimum
- Monthly revenue per school: \$1,200 (100 students)
- CAC per school: \$7,700, payback: 6.4 months
- Year 1 gross margin: 29%, Year 2+: 75%+
- 2026 annual: \$34.7K, run rate by Dec: \$4,800/month

### Year 2+ Pricing Tiers

- Up to 1,000: \$25K / 1,001-2,000: \$40K / 2,001-5,000: \$60K
- 5,001-10,000: \$80K / 10,000+: \$80K+

## SLIDE 7: MARKET OPPORTUNITY

### Non-Traditional Schools Market

- TAM: 6.3M students aged 25+, 600 institutions
- SAM: 250 institutions at \$45K average = \$11.25M
- Why Now: Non-traditional enrollment +16-19% annually
- Enrollment cliff: 13% decline in HS grads through 2041

## SLIDE 8: GO-TO-MARKET

### Phase 1: Dual Pilot Validation (2026)

Traditional: College of Education pilot (100 students)

Non-traditional: Fortis AL + 1-2 new networks

### Phase 2: Scale (2027)

- Direct outreach to provosts, deans, student success officers
- Referrals from pilot schools

- Conferences: UPCEA, NASPA, AACC (April-Dec 2026)

## SLIDE 9: TEAM & WHY NOW

### Leadership

- Efrat Segal - Founder & CEO: Built from personal pain, led pilots
- Tamir Harosh - Strategic Advisor: Higher ed expertise & GTM

### Market Catalysts

- 88% of colleges expanding online (CHLOE, 2025)
- \$248B adult learner market seeking solutions
- Pilots live, product-market fit validated

## SLIDE 10: IMPACT & VALIDATION

### Fortis AL Results (6 weeks)

- Zero dropouts vs 44% historical rate
- 100% midterm pass rate, 98% persistence
- 100+ student pilot: Org skills 2/5 to 4/5, Stress 7/10 to 4/10

### Real Student Stories

S., Indiana University: "I was surviving, not living. Now I sleep without pills and feel confident."  
A., Florida: "I finally feel like I can succeed in school and live my life."

## SLIDE 11: FUNDING ASK

### \$750K Allocation

- GTM & Team: \$300K (40%)
- Product: \$225K (30%)
- Conferences: \$112K (15%)
- Insights: \$75K (10%)
- Operations: \$38K (5%)

### 2027 Targets

- 5 contracts, 1,500 students, \$600K ARR

## SLIDE 12: CLOSE

Students never learned how to learn. Boostability steps in where education failed.

We build institutions that see their students as humans capable of extraordinary things.

## KEY METRICS

- CAC per student: \$77 | CAC per school: \$7,700 | Payback: 6.4 months
- Pilot partners: Fortis AL (active), Touro (key), College of Ed (pipeline)
- \$12/month = \$10 app + \$2 Boostability 360, faculty free
- Current structure: LLC, planning B Corp at funding
